— NEWS RELEASE — FOR IMMEDIATE RELEASE — June 5, 2024

## THE IMPORTANCE OF INTEGRITY IN GOVERNMENT:

### Election Integrity Begins with Personal & Professional Integrity

MAGADONIA, MARICOPA COUNTY, AZ — As for me and my household, we are MAGA. As a tried-and-true believer in The American Way and America First, I am strongly committed to what MAGA stands for, plain and simple: Make America Great Again!

All throughout Maricopa County, from Phoenix to Fountain Hills, Apache Junction to Avondale, and El Mirage to Mesa, MAGA is the thread that binds generations together—past, present, and future—and MAGA is Maricopa County’s last best hope.

“Ask not what your country can do for you — ask what you can do for your country.” President John Fitzgerald Kennedy was the first president I remember in my young life because I know the exact spot where I was standing when I heard the news that he had been assassinated. I registered as a Democrat after high school because of the impression JFK made on my life, and his goal to land a man on the moon by the end of the 1960s. I’m a lifelong conservative at heart. On paper, I marked my ballot for the weakest Democrat in the Primary Election who would go on to face the Republican in the General Election, and I always voted for the Republican in the General, from Ronald Reagan on through to Donald J. Trump. Around a quarter-century after I began this strategy, Rush Limbaugh popularized it in 2008, dubbed “Operation Chaos.”

For some, their “last best hope” is more like their final act of desperation, or worse: corruption. In regards to a candidate’s integrity, it’s a given that what some Republicans may “let slide” in a Republican Primary will ultimately prove to be an all-too steep and slippery slope, their “last best hopium.” Guaranteed, Democrats, mainstream media, and big tech will pounce on this in the General Election.

Stephen Richer betrayed Republicans by breaking his promise to “Make the Recorder’s Office Boring Again.” Justin Heap says he’s “not MAGA” and “does not need to answer the question” if the 2020 election was stolen. To get a straight answer, Justin might ask you, “Did you donate to [his] campaign fund? And if not, why did you not decide to do so?”

I am confident that voters will see in me a future County Recorder who is guided by principles, honesty, and integrity. I will strive to inspire and restore public trust in the administration of our elections. Upon taking the oath of office, I will diligently and responsibly manage our voter rolls and build professional working relationships with the Board of Supervisors and Elections Department. I have a history of working on civilian and government contracts, from submitting proposals to signing contracts worth millions of dollars. I will push for public-private partnerships (PPPs) to be more open and transparent, with both me and you, alike.

Since the 2018 midterms, Maricopa County voters here at ground zero—along with observers nationwide and around the world—are right to raise serious concerns about the integrity of our elections in Maricopa County. This underscores the importance of having a trustworthy individual in this office. I am dedicated to protecting your right to free and fair, open and transparent elections. Thank you for your support—and your vote—in the upcoming July 30 Republican Primary Election!
